RE: Building & Site Committee Meeting ~ Agenda Notes

Update on Facilities Planning

We will review the presentation that was shared with the public at the community forum on October 10, 2018. This will include one (1) final solution involving the construction of an elementary complex on the property that the current administration and transportation building sits on at 809 E. Tinkham. This property could allow for an elementary complex to be built without building on the Outcalt Property, while also not having to rely on purchasing another piece of property. Details will be shared with the Board, along with an overview of all of the solutions that have been presented to the community thus far so that the Board can begin to provide a direction for the solution that they would like to see presented in November.

Updates from Other Committees

We will discuss items from the other committee agendas so that all board members are aware of the topics covered in all meetings prior to the Board meeting Monday evening. The memorandum detail can be found for each of these items on the agendas for the other committee meetings.
